Thanks very much to you fellows, and I beleive we are getting a fairly good log together with this column. By keeping a list of stations reported here, it wouldn't be very long befor a pretty good list could be made. With everyone's consent, this department will include all commercial short wave stations. These stations are not covered by the regular SW section, so we'll do our best here.

Pat Reilley in sending his first report remarks that his XYL won a 6 tube Knight Radio, and that his reception listed above is from the Knight receiver. His reports are all for Dec. 16. Mine are mostly from Dec. 18. Well, your Editor wishes you all a wery Merry Christmas and all good wishes for the New Year. All he wants is lots of reports.

Well, here we are again, and this is the first column of the New Year, and its not so bad considering the Holiday season which brings several things to take your attention. At this time I would like to thank the members that sent the XYL and I so many fine Christmas cards. Several new stations took to the air since the last column, many members will welcome the chance to log Portuguese East Africa, and you certainly wont have any trouble to log CR7BE, as he is R9 most of the time he is on the air. I copied him for two hours and fifteen minutes. To you chaps that sent in reports many thanks and don't forget me next week, it takes reports to get out a column and I am certainly looking forward to your help. (Fred Alfred)

THE VOICE IN THE WILDERNESS:-

According to the last column, possibly I will be able to use the title. The Voice of The Assnt. Short Wave Editor again. So keep up the good work. 73's (Leo Herz)

WELL! WELL! Look who we have with us this week, none other than Larry Lundberg, greetings OM we are all glad to see you back at the dials?? After such a long lay off. "e really have an old fashion NRC column this trip, and I certainly appreciate you members help, DX here the past few nights has been very poor due to Northern Lights, signals have been very weak with only the high powered stations being heard, I certainly want to thank each and every member that sent in reports. And to you chaps that didn't why don't you, you would be helping the good old NRC alot. Dont forget me on Jan. 27th.

YOUR ASSNT SHORT WAVE EDITOR:- Thinks that the last two Columns where F.B. But we do need more reports DX is on the up grade ur Assnt SW ED had the thrill of four years DXing on the SW when I logged CR7BE. So you SW members send in those reports, by the time you read this I will have seen some of the boys at the WTAM SPECIAL 73's (Hi Leo did you arrive home OK, I did. Oh Oh not Johnney either Hi. - "FLASHES FROM HERE AND THERE"-----
- H.V.J.-Vatican City. Special Radio Broadcasts of Vatican news for North South & Central America will be inaugurated on Jan. 4th/40 by this station, it was learned they will be given regularly on Mondays & Thursdays on three different wave lengths. The first broadcast in English to the U.S.A. will be given Jan. 4th at 3:30 AM (ROME TIME) 9:30 the day previous in New York on 6.190kc/s, it will be preseded by a broadcast in Spanish for Central America at 3 AM on 11.740kc/s, and by another also in Spanish for South American countries, at 2:30 AM 15.120kc/s, on Monday the transmission to the U.S. will take place at the same hour and on the same wave length, while at 2:30 AM the transmission will be addressed to Brazil, in Portuguese at 3 AM, to Canada in French on the 6.190 kc/s frequency. (FORESTIERI)

According to Radio Guide, the U.S.S.R. is broadcasting on the following frequencies 7-8 AM over RNE and 11.915kc/s, which QRM's XGOY, and 11.895 kc/s, and irregularly on 11.810, 11.705, 11.640kc/s, the 11.705 freq QRM's LKQ.

ATTENTION:-According to the latest Radio Guide:- The new 20.000 watt transmitter for Teheran Iran (Persia) was shipped several weeks ago by the manufacturer Standard Telephone and cable, England. Therefore I think we are safe in assuming the station heard testing on 9.600kc/s near 7:15 A.M. and announcing as E.C.C. was actually in Teheran.

SHORT WAVE NEWS

JAPANESE BROADCAST SCHEDULE FOR FEBRUARY:-

For Europe:-JWV-7.257kc/s, JZI-9.535kc/s, 2 to 4 P.M.

A new feature in their monthly program bulletin is a page devoted to letters from listeners from all parts of the world, all communications should be address to: The Broadcasting Corporation of Japan, (Foreign Department) 2-Chome, Uchisaiwaicho, Kojimachi-Ku, Tokyo, Japan. (ALFRED)

The Canton (CHINA) station on 11.650kc/s is definitely XGOK which with increased power is broadcasting daily from 7 to 9 AM. The News is given in English at 8:10 AM and most of the bulletins are of a strongly pro-Japanese character. (RADIO GUIDE)

Mel Oliver, wants to know, WHO! was the station between 7:15 and 7:30 AM on a boat his call was KCRX and the name sounded like "Donna Aurora" it was on a freq. of about 6.700kc/s and was calling KCSD on what sounded like "DONNA SIDRO" They were some where in the Pacific as they mentioned Manila, and a couple of Chinese ports. Can any one give Mel. any help on this one, if so drop him a card. (QRA under reporters)

Just rec, a card from Jim Walker, and he says that XEWQ is on 31 meters relaying XEQ has an R6-7 signal at 11:30 A, also VLW-5 on 31 meters heard under an India station, with an R6-7 signal at sign off which is 8 A.M. he says that VLW and VLW-5 have the same program.

I heard CR7BE this afternoon R9 plus and the lady announcer was reading the mail bag at 3:10 P.M. all reports were from listeners in Africa. (ALFRED)

Well, thats the end, and in closing I wonder if I may ask a favor of you chaps, When sending in your reports will you please put tips on a page by their selves, it would make it alot more easier for me, when I have to get the column out, Thanks alot. Fred.

A little Scandel on the Cleveland Gathering sent in by:-WHO, is WHO, Jack Siringer showed the Chicago boys up at the bowling alley, with a very nice score of 235. Who was it mention bowling, was it the Chi boys. Eric Bristwo (pardon me Bristow) got drunk from the smoke from the RUM & MAPLE tobacco that Chas Trezise was smoking on the way home. We are wondering why Leo was cut off the air, and who took the ONIONS from Zana's home at one of our meetings. Who was the Romeo who was seen with Zana at the Alpine Club, I am sure he was a stranger. But what crip the Chi boys were those Gaudy pajamas that OM Trezise's was wearing, too young for him. Morrison just needed one more fiz and we mean fiz. Oh Oh where did Ruthies shoes go too, at the Alpine?????. Ask Charles . The Chicago boys meet their Waterloo in Waterloo, then ran into Napoleon 20 miles further on. Who said the Bremen was in Germany, its in OHIO. Everybody looking for "Gail" and where's Elmer. Wonder who drank the Jin Fizes at the Alpine without paying for them. Also who got the most home runs at the "GOODYEAR" HOTEL???? The way the Hostess showed the gang around the WTAM studio explaining everything in detail. O where was Siringer. Thm ther Chi boys are aful. Ask any one at the Cleveland gathering, but warn youse guys here in the East better stay away from Chicago at their "MID WESTERN CONVENTION" to be held in Chicago this summer. Hi Hi. COMMENT: Most important in the line of comment this week seems to be the new set-up in the Lighthouse Service. The entire service has now been transferred to the U.S. Coast Guard. All of the lighthouse and lighthouse tender stations as well as the lightships already have new calls or will get them soon. They will all be official U.S. calls beginning with the Government prefix "N". A few already noted have been listed above. More will be checked as soon as possible and will be noted. As far as we know, these stations will verify. The Coast Guard has always been very ready to cooperate with DX'ers who tune their frequencies.

Word recently received from Joseph T. Lippincott indicates that Joe will appreciate the heading of this column as it appeared on January 1 and as it appears this week better than he appreciated the Old Heading. Joe maintains that MEDIUM WAVES are those between 500 and 1600 kcs. or our Broadcast Band. I guess Joe is right, so we will continue to call this column the "Commercial Short Waves".

Again we would like to stress the fact that these frequencies are interesting tuning. Either Charles Leboeuf or Earl Roberts of the NNRC can tell you that. Would suggest that those of you who have not tried this band do so, and then send me a report on it. Especially those interested in hearing what there is in the line of Medium Wave reception from Middle and Far West.

LETS LISTEN TO LITTLE AMERICA----- According to Radio Guide,--The Byrd expedition now nearing Antarctica will use short wave extensively both for local and for international communication purposes. The first broadcast from Antarctica subsequently to be made every two weeks, will originate back the expedition's west base. A new site for Little America 100 miles east of the 150 meridian. This camp will be equipped with two 500 watt short wave transmitters, one of which will establish commercial contacts with the American networks using the call, KRTK, the other, and amateur station is to be known as KC4USA, after the west base the ships will back track to Valparaiso, Chile, to refuel, and then set up the east base on Alexander Land, south of the southern most tip of South America here the commercial transmitter will operate under the call KRTC, the amateur transmitter under the call KC4USB. The great lumbering snow cruiser also completely radio equipped, houses commercial short wave transmitter KRTA and Amateur transmitter KC4USC. In addition, there will be 25 low powered out post stations, including 9 radioequipped dog sleds and powerful transmitters in each of the expeditions 5 planes, amateur transmitters KC4USA and KC4USB, and KC4USC will operate optionally on 7.075, 14.150 and 28.300--Commercial transmitters KRTK KRTC & KRTA will be hrd experimental freq 6.425, 9.135, 11.060, 12.862 or 23.100 kc/s.

--EDITORS CHATTER--

Well fellows! Here I am doing a little pinch hitting! OM Harry Gordon sent an air-mail special, with about 100 sheets of reports from you members. It took 6 hours to arrange the info and I still have to type this section out so please excuse any mistakes, AND what my turn out to be a lousy SW section. Pinch-hitting for an Editor like Fred Alfred, is like to comparison, trying to find a needle in a haystack. Fred was one swell Editor, and his shoes will be hard to fill. We shall all miss him greatly and shall keenly feel his loss in our Radio DX.

Meanwhile I shall pinch-hit till a new Editor is found, and you fellows can send your reports direct to me. I have been tuning only 49 meter band, and am entirely lost at the present time, concerning stations on the other bands. I shall need your support 100%, in order to fill the shoes as S W Editor. Will you fellows come through ?? Thanks a lot in advance.

--THE VOICE OF THE ASSNT SW ED--

"I was sorry indeed to read about Fred having to quit. I know we have lost a VFB Editor. I know that I am not speaking for myself but for every single SW DXer of the NRC."

Radio Station XYZ at Rangoon, Burma, 6.007 is being hrd with very loud signals from 7:30 AM on altho they are heterodyned by someone. The programs are similar to those hrd from India. English announcements are given at 8:30 AM. Have been hrd by several Chicago fellows. (Beyer-Chicago) VFB news OM! Editor.

The Transmitter of the Fahnstock South Sea Expedition was hrd by Zana Kandle on 9.130 megs at 10pm EST on Feb. 5th. Watch for this station. (Herz-Chicago)

In a recent issue one of the fellows stated that he could not get a verie from CXAS from LR3. Gail Beyer states that it is a waste of time reporting direct to Colonia as all his reports went unanswered while his reports to Buenos Aires was very promptly verified by letter signed by:- Juan E. Cossio, General Manager. Gail states that this was not recently but about a year ago. However this is worth trying and thanks for the Tip Gail OM!.

Jim Walker states that VLQ5 is not on the 31 meter band anymore. The call VLQ5 call is not even announced. They must have discontinued this call. (That is correct Jim. Latest sheet from Australia does not list VLQ3 anymore. Editor.)

HVJ in Vatican City is testing between 8:30 & 9:45 PM EST on Sunday and Thursday evenings on 9.560 & 9.66 mcs.(?????????)

PSH Rio De Janeiro is now transmitting a program in English on SW every Monday evening at 8:00 PM EST on 10.220 mcs according to W.T. Arms in the New York Times. (I don't know who to credit these last 2 items too. Sorry OM!)

Jim Walker tunes in CR7BE and at 3:10 PM hrd his report read over the air. They were hrd R8-9, Q5. Quite a thrill for Jim even though he has had his name called over DJA VK3ME HC2RL HJ4ABK KSL and KDKA.(VFB OM! At least you know your report is there.)

--QUESTION & ANSWERS DEPARTMENT--

JIM WALKER-"What is the call of the India Station on 9.570 mcs ?"

Answer- There is no India station on 9.570 mcs. VUB2 at Bombay is on 9.550 mcs and VUD2 at Delhi is on 9.590 mcs. Must have been one of these stations that you heard

GIL HARRIS-"What are the calls of the Spanish stations on 3.520 & 4.105 mcs still hrd at 10:00 PM EST ?"

ANSWER-"Station YV5RV 3.525 at La Guaira,Venezuela is on from 7-10:30 PM EST, and HCJB2 at Quito Ecuador is on 4.107 mcs till 10:15 PM EST.(Hope this helps you out Gil OT.)

GAIL T.BEYER-"Hrd a mystery station on about the same freq as TAP on Jan.28th from 2-4:30 PM and I do not think it was Turkey

Only 2 announcements were hrd. One at 2:13 PM and the other just before sign off. Woman announcer which sounded like French but lacked the accent that are so peculiar to the French Language. Music was recorded Dance music with a few Hawian & Spanish selections also. Sigs were R4 at 2:00 PM but rose to, an R8 at 3:00 PM. Can Anyone help Gail out.??(This station may have been VONG at St.John's,Newfoundland who is now hrd on about 9.470--9.480 mcs. May have been a test program as they are not scheduled for this time of day.Editor) Gail also hrd a station on about 6.00 mcs featuring the same kind of music as is hrd over the India Stations He hopes it was XYZ at Rangoon Burma as they were hrd from 7:45-8:00PM with R6-7 sig and a whistle QRM.(Well Gail OT from what our reporters state this week the station you hrd undoubtedly was XYZ. Hope you saved the report OT. This is a good catch.Editor)

--ATTENTION ALL MEMBERS--

Something is happening to our grand hobby of SW DXing. More and more stations are ceasing to verify everyday. More and more clubs are going out of existence every month. Just today I received notice that the DXIEC has went out of business. What is causing this? Is some Radio Club the fault of this change? Can it be the QRC? Are DXers sending poor reports to the stations or sarcastic letters? Are the stations sick of getting reports? Surely something is happening to make this change in our hobby. More and more old time DXers are giving up our hobby because of the above situation. Something MUST be done and HAS TO BE DONE SOON! Your Editor is willing to cooperate in anyway, whether it be money, Time or effort to bring back our hobby to the level it once knew. I would like to have your ideas and comments on this article. I would like to hear from everyone of you DXers. No other hobby can be found anywhere that can be more interesting or instructive than our hobby of radio DX. Lets do something to bring it back before its too late! I am willing to co-operate. Are YOU? (Larry Lundberg)

--THE VOICE OF THE ASSNT SHORT WAVE EDITOR--

What are YOU doing to help your club? Ask this of yourself! Are you an active member by sending in reports? Remember this is your club, for the members and by the members. I did not realize this so much, but after a visit to HQ last summer, I have come to the conclusion that every member should be as active as possible to the extent of reporting his or her DX as often as possible. 73s and DX-Leo Herz. (VFB article Leo OT but from the looks of this bulletin the NRC members sure are doing their share for their club) (Larry).

--1940 SHORT WAVE CONTEST STANDINGS--

Did you guys and gals notice who entered our SW contest 2 weeks ago? Hi! None other than OM Harry Gordon! VFB Harry OT and I see where we are going to have some real competition from HQ this year. Looks like the rest of we mugs will really have to buckle down if we plan on winning a prize now. Hi!

SHORT WAVE NEWS

Gail T. Beyer- The station I reported in the last bulletin on 11.840 mcs may be the Madras transmitter listed in the IDA as being on 11.875 mcs who operates in parallel with VUD2. Don't see how I missed the freq by so much but may have been due to moisture in the air or my receiver being cold. The latter always affect my dial readings.

Any help on the above questions will be greatly appreciated by your Editor and the members.

--NEWS OF OUR MEMBERS--

John H. Derosa has been a very sick man for a long time just getting out of bed a short time ago. We all wish him a speedy recovery and hope all members will be patient when waiting for a letter from John as he is swamped with mail.

Mel Oliver also has been feeling bum with the flu and has done very little DXing of late. We also wish him a speedy recovery.

Gail Beyer has sent reports to XYZ VLQ VLW2 & CR7BE this year. Also sent your Editor a VFB shack photo. States that VP2SA took 11 months to verify and that PK2LZ sent a photo of his shack and one of the hotel of which he is manager along with some VFB information about himself and town.

Fred Alfred built himself a record player and is having a lot of fun these days with it. He made it out of an old 8 tube radio taking the Radio part out and left the amplifier stage in and added a dynamic speaker. He claims it works swell. (Hi Fred are you still alive, havent hrd from you in weeks. HMG.)

Thanks a million fellows! You have the real NRC spirit. With 41 reporters in the club on SW we ought to be able to compile all the latest data on the SW spectrum that is possible to get. You fellows are sure doing a grand job supporting your club and is one of the main reasons why this bulletin is obtaining such swell & noted success. Thanks again.

--SPECIAL FLASH--

Gail Peyer received a air mail verie from CR7BE stating the following information which will be of interest to all.. "The printing of their cards is held up due to present conditions, but as soon as they are received by the station they shall be sent out to all that reported. Reports are appreciated and Radio Club Mosambique, Caixa Postal 594, Lorenzo Marques, Portuguese East Africa, is the correct QRA. They are on the 31 meter band from 2-4 PM EST daily except Sunday and on the 19 meter band (No freq given) from 7-8 AM EST beamed on North America.

A special program on the first of each month from 7-8.15 AM EST can be heard over YUG 15.240 Belgrade, Yugoslavia and DXF 11.855 & DXC 11.290 at Berlin Germany. (Grant Batson) Is this AM or PM Grant. You failed to specify.

--QUESTIONS & ANSWERS DEPARTMENT--

Mike Fern has been hearing a mystery station that has him guessing. Station was hrd on Jan. 19 & 20th from 1-2:30pm EST. On the 19th the program consisted of BBC news and then a program of American Folk songs such as Old Black Joe ect. On the 20th the program consisted exclusively of Oriental music. I think it was a British East African station due to time and such. The freq was 6/720 megs. ((SOS SOMEONE))

Bireley Ross would like to know how to get a verie from KC4UCS. The Byrd expedition. (Bireley OM it has been rumored that the ARRL might verify these reports. Reports that sent to the ARRL may be verified by the expedition after their return from Little America. As soon as authorized and verified information is secured we shall notify the NRC members.

--NEWS ON THE MEMBERS--

Nick Woytan hasn't DXed much lately but sent reports to K6PLZ, K6ILW K6PTW and K7HAR.

Jack Siringer doesn't expect to win the 1940 contest but is entering to help stimulate interest and give the gang a run for their money.

Leo Herz sent over 40 reports out during the recent ARRL Ham contest. Boy will the mailman be busy at his house soon. Hi!

Jesse Strawn our new 215 pd NRC member plans on getting a Howard receiver soon and will be a NRC SW reporter when he does get his set. Being 21 yrs old with blue eyes and brown hair he really is a FB catch for the YL's. Has a VFB SWL card and likes to swap with all members. Welcome to the club Jesse OT. Jesse also thinks that the NRC is the finest club in the world. Thanks!

Mert Meade took his exam for a Ham license. We all wish him the best of luck and hope he passed. Also swaps SWL cards 100%.

Dick Daniker uses a Hallicrafter SX-24 receiver and thinks it is the best receiver made.

Mike Fern is 15½ yrs old and operates a Paterson 1937 PR16C 16 tube superhet. Has hrd 50 countries and 25 zones. Has been tuning 20 meter since 1938.

Charles A. Black has just joined the NRC and tunes for both the Ham & SWBCB stations as well as DXing on the BCB. We hope Chuck enjoys his membership in the NRC.

Fred Alfred says the noise level has been extremely high. He has risen early twice in a row only to have to go back and hit the hay again because of poor DX conditions. Hi

--NATIONAL RADIO CLUB REPORT FORMS--

Fellows! Your Editor has received some swell comments from several Radio stations about the NRC report forms. Some state that these report forms are the best they have ever seen and that they give just the information that the stations want. For better reports use these forms.

EDITOR'S NOTE

Greetings and salutations, members of the NRC. It's been a long time now since we have given you some short wave news. Now that the club has resumed its bulletins once again, we shall attempt to give you the latest tips on the SW spectrum. I hope you fellows will send me lots of reports. All will be welcome and certainly appreciated. I would like to have all reports in my hands by next Saturday morning if possible. We will run a complete SW bulletin every 2 weeks with hot tips (if any) during alternate weeks. Therefore you will get the latest SW news each week. As a start I would like to catch up with some back work that I know will be of great interest to all of you.

"The Voice of the Asst. S.W. Editor"

"Let's all give a vote of thanks to Ray Edge for being so swell as to keep the show going. To show our appreciation, let's all give him our whole hearted support, renew promptly, and support the NRC 100%."

Sorry, gang, but am limited to 1 page this time so can't give any more news.

Three countries never before heard on regular broadcast are now being heard daily with signals from R7 to R9.

SENEGAL-FRENCH WEST AFRICA: "Radio Dakar" 9400 kcs. at Dakar, is being heard varying times during afternoon, usually 2:30-3:30 PM and also occasionally 6-7 PM. All announcements are in French, by both man and woman. Station supports Vichy government and usually signs off with "La Marseillaise" French national anthem.

MOYEN CONGO-FRENCH EQUATORIAL AFRICA: "Radio Brazzaville" 11970 kcs. 5 kw. at Brazzaville, is heard in French only, daily 1-1:30 AM and 3:30-4 PM. Station supports Free France and De Gaulle. Plays "God Save The King" occasionally and gives news in French at 3:35 PM. Reports are requested and should be sent to the station in care of: Service de la Presse et des Informations de la Gouvernement Generale, at Brazzaville.

BELGIAN CONGO: "Radio Congo Belge" at Leopoldville transmits two programs daily; on 10149 kcs. via station OPM from 2-2:45 PM, and on 20040 kcs. station OPL from 6-7:15 AM. OPM is especially well heard. Programs are in French only. Interval signal is 4 notes of scale and also repeated chords of native music. (MANN)

BCB REPORTS CONT'D.

STEVE MANN-LAKEWOOD, OHIO: Veries received: CFCT KOIL KFDA WARD KYAN KLO WSPR KFRU KTKC WGOV WGST KHSL WORD WSAM. Also letter from YV2RB (980) San Cristobal, Venezuela. They are going to DX for NRC in Jan. or Feb. when new xmtr. is completed. DAY BY DAY LOG: NOV. 7: WORD, WMOG, WGOV, and WKIP, logged on Vests as well as WBOW with election counting. NOV. 8: KGIW on FCC check and WSAM at 6 AM sign on 1200 kc. NOV. 10: WKNE, Keene, NH, new call and location for WNBX heard testing. KVAN heard R8 on monthly freq. check 4-4:15 AM EST. During evening, noted that XEW is now on 910. Also logged WKBH at 9 PM. NOV. 11: Static terrific. Just barely able to log CJIC special. Also got WSLB. During evening WJR was off the air as their 733 ft. tower was blown down in 52 mile an hour gale that was raging here in Great Lakes area. Therefore CMK was coming thru on 750 kc. NOV. 12: CX6 on 650 heard well on club special till 3:15 at which time they faded out, so I heard remainder of program over CX6 on SW. Very nice. Mentioned NRC several times in English and Spanish. I am hoping that CP3 special this coming morning can be heard as well!

ROBERT X. BREYMAIER-LAKEWOOD, OHIO: Here's my first BCB report of the season. Only veri received recently is KLS. During past month, I heard several TP's including 1YA, 2CO, 2YC, 2CY, and others. CX6 special this past morning was heard easily till 3:14 AM when it faded out completely. CX6 signed on early (2:45) and from then till 3:14 was a cinch, occasionally hitting R9! Receiving equipment here now is the Howard 438 rcvr together with Howard 650 Preselector and loop antennae. Will be up trying for CP3. (Tnx for rpt OM, lets hear from u more often)

JACK SIRINGER-LAKEWOOD, OHIO: Only veries received recently are WKIP 3GI 3WV 3AR 6WF. Have not been able to DX much because I work 12 hrs. and more a day. Got up too late for CX6 special, but hope to pick up CP3 on the morrow. (Tnx for rpt, Jack OM. Hope you can DX more soon.)

If you any of you boys have information on BCB stations in Honduras, Dominican Republic, El Salvador (besides YSS), Nicaragua (besides YNPH & YNOW), Panama (besides HOK) or Ecuador, please send it to Steve Mann.

NOTES FROM HERE AND THERE

HH5PA verified on reply card. KC4USA hrd on 14:15 6:30-6:45 AM. I logged KB6ILT for new country and sent report by airmail. J5CW sent 4 QSL's and 5 pictures as verification. (Herz, 111.)

I am first one to receive a QSL from ZL4AC. He claims it is the 1st report he has answered because he says he would need to a secretary to answer all reports, so therefore answers none. (Beyer, 111.)

Hrd W6BOY, portable marine off coast of Cuba. (Yes it's good in our contest OM-Ed.) Finally received QSL from TF3C on a report sent him originally in 1938! (Tavener, Texas)

ZP7, HP5A, and CB1170 all operate on 11.7 megs., but with careful tuning, these 3 can be separated. (Lundberg, Minn.)

SHORT WAVE NEWS

Fred Alfred received 2 page letter and six 6x10 cards from CR7BE. They were mailed in Mocambique Feb. 22. The cards were photos of various places in Lourenco Marques as well as of the station, all VFB.

QUESTION & ANSWER DEPARTMENT

If anyone has an up-to-date call book, will they please send Jim Walker, Cass, W. Va. the QRA's of KF6JEG, EK1AF, and LY1J.

Stephen Mann wants to know if anyone is still hearing EAJ43 (7.49) 7-8 PM EST. Also ZIZ on Wed. 7-7:30 on (6.348). (Hope you had a grand vacation in Mexico this summer, Steve-Ed.)

Mert Meade is now W9KXL. At present he is playing around on 10 meters on 28.96 using 20-25 watts with a half-wave doublet and a Vee beam two waves to the leg. He plans to put up a rotatable 8JK beam for 10 & 20 and operate 10 fone; 20 & 40 cw. If you hear W9KXL, send a report.

Jesse Strawn, Whiting, Kansas purchased a new Howard 436 and is busy using it these days. Looks like we'll have another SW reporter now.

Joseph J. Becker Sr., 415 So. 11th St., Hamilton, Ohio, new NRC president, would like to swap SWL cards with all members. He only has 1212 cards and would like to increase this small amount!

ANOTHER S.W. CONTEST

The International Short Wave Club, East Liverpool, Ohio, is staging a gigantic SW contest. Here are the rules: Contest opened Nov. 1st and closes next July 1st. Points will be compiled in lots of 100 for each 100 miles between the listener and the transmitter, measured by the shortest possible route. To equalize the location situation, no station less than 500 miles from the listener will be counted. A station operating on one or more frequencies must have each frequency specifically verified to count more than once. Amateur verifications must show post mark and state that station was heard using voice. Verifications must reach the ISWC by midnight July 1, 1941. The listener with the greatest no. of pts. will be given a Sky Champion receiver. Other prizes too numerous to mention will be awarded. The contest is open to everyone regardless of their location, skill in tuning, or what radios they belong to. There will be no entry fee. Enter this contest now.

REPORTERS

I want to thank Steve Mann, Fred Alfred, Leo Herz, and Carl Forestieri for their fine reports that make this column possible. Let's hear from the rest of you fellows. Welcome too Fred Alfred who is again SW DX'ing.

ATTENTION

Ye ed received a card from member with a report stating that he had moved to Holden, Wash, without signature. Will this member please notify me.

Station on (6.01) heard at midnight using old Berlin chime.

EDITOR'S NOTES

I have been sick in bed with the flu so have been late in answering your cards and letters. Luckily, however, I had this SW news all typed. The news in this bulletin is credited to Fred Alfred, Leo Herz, Carl Forestieri, Steve Mann, and your editor. Thanks a lot you fellows. Now, how about some of the rest of you dropping me a report? Remember, the SW section will appear weekly from now on. However, a good column needs reporters. So let's have those reports!!

Because of lack of DX on them, the Ham Bands section has been discontinued. Any exceptional catches on ham bands however, should be sent here along with your regular report.....Larry Ludberg.
